ROTC

A model of precision, dress and behavior, the ROTC cadet was a standard bearer on the campus. ROTC was not only a club, it was a series of unique courses taken in high school. While delving into the mysteries of flight theory, air navigation, physiology of flight and meteorology, the cadets underwent a strict regime of leadership training and challenges. Each year the cadets received awards and scholarships because of their special skills and abilities.

The 1984-1985 Leadership Squad

Merle Norman really messed up on their make-overs!!!

Pep-in-Action

Mrs. Glassen, the Leadership advisor for the last 5 years, was very pleased with her 1984-85 squads. Her comment was, "My varsity songleaders were the best squad I have ever had. They were organized, dedicated, talented, and got along well with each other. Led by their captain, Dana Eytcheson and co-captain Kim Cruzen, they spent many extra hours practicing for their performances. Juli Hom, captain of the junior varsity cheerleaders, also did an outstanding job with her squad." Mrs. Glassen anticipated the 1985-86 squads to be even better.
